

Leaders After School

06_17

Right in your child's school, in a safe & familiar surroundings, without the bus ride

Dear Parents:

With so much emphasis on education nowadays, academic enrichment is a key factor to your child's academic success. At the same time, we recognize that kids need to have time for fun, too. Leaders offer a balanced after-school program which will include the following:

- **Snacks** -A light and nutritious snack will be provided.
- **Smaller Classes** – smaller class size means children will have more individual attention, enabling our staff effectively to monitor each child's progress and help produce better overall results.
- **Caring, Certified Staff** –Dedicated professionals with years of experience working with children.
- **Homework Assistance** - Staff will assist our children with their homework, ensuring that they understand the material and complete it properly.
- **Academic Enrichment** - Includes test prep which will help your child to stay ahead in school, as well as extra practice work to reinforce what they have learned in class.
- **Recreational activities** – After being in school all day, kids will have some time for fun!
